PROFILE

Cyber Security student at Griffith University (graduating mid 2027) with internship experience building Python automation, and hands-on lab work with Wireshark, Nmap, Burp Suite, Metasploit and Splunk on Kali Linux. Background in client-facing, administrative and field work that has built strong communication, organisation and problem-solving skills. Seeking a graduate, internship or entry-level IT support or security role on the Gold Coast or in Brisbane.

EDUCATION

Bachelor of Cyber Security Expected mid 2027
Griffith University, Gold Coast

- 180 credit points completed.

Certificate II in Sampling and Measurement
Leichhardt

EXPERIENCE

Software Engineer Intern 2025 – 2026
City University of Macau

- Researched and prototyped a Python system to test how well CAPTCHA challenges resist automated solving, using web scraping libraries and API integrations.

Landscaping Assistant (Casual) 2022 – 2024
AAMS

- Managed billing, accounts and scheduling for the business.
- Handled client communications and resolved customer queries.
- Worked across varied job sites requiring problem-solving, adaptability and attention to detail.

Volunteer 2023
Oxenford Community Centre

- Completed a range of community support tasks.

PRACTICAL LAB EXPERIENCE (GRIFFITH COURSEWORK)

- Captured and analysed network traffic in Wireshark; scanned and enumerated hosts with Nmap.
- Tested web applications for vulnerabilities with Burp Suite and exploited lab targets with Metasploit in Kali Linux.
- Searched and analysed security logs in Splunk.

TECHNICAL SKILLS

- **Security tools:** Wireshark, Nmap, Burp Suite, Metasploit, Splunk, Kali Linux
- **Programming:** Python, C#, PHP; MySQL via phpMyAdmin
- **Cloud:** Microsoft Azure
- **Concepts:** Network security (firewalls, VPNs, IDS/IPS), incident response, vulnerability assessment, encryption, ISO 27001, GDPR
